# SOLID COLORS

● = Poor Lightfastness   ● = Moderate Lightfastness   None = Good Lightfastness  
 Colors with poor lightfastness are not recommended for applications with direct sun exposure.  
 Light-fastness rating based on accelerated UV testing in accordance with ASTM G155 (1,000 hour Xenon Arc Light Exposure).

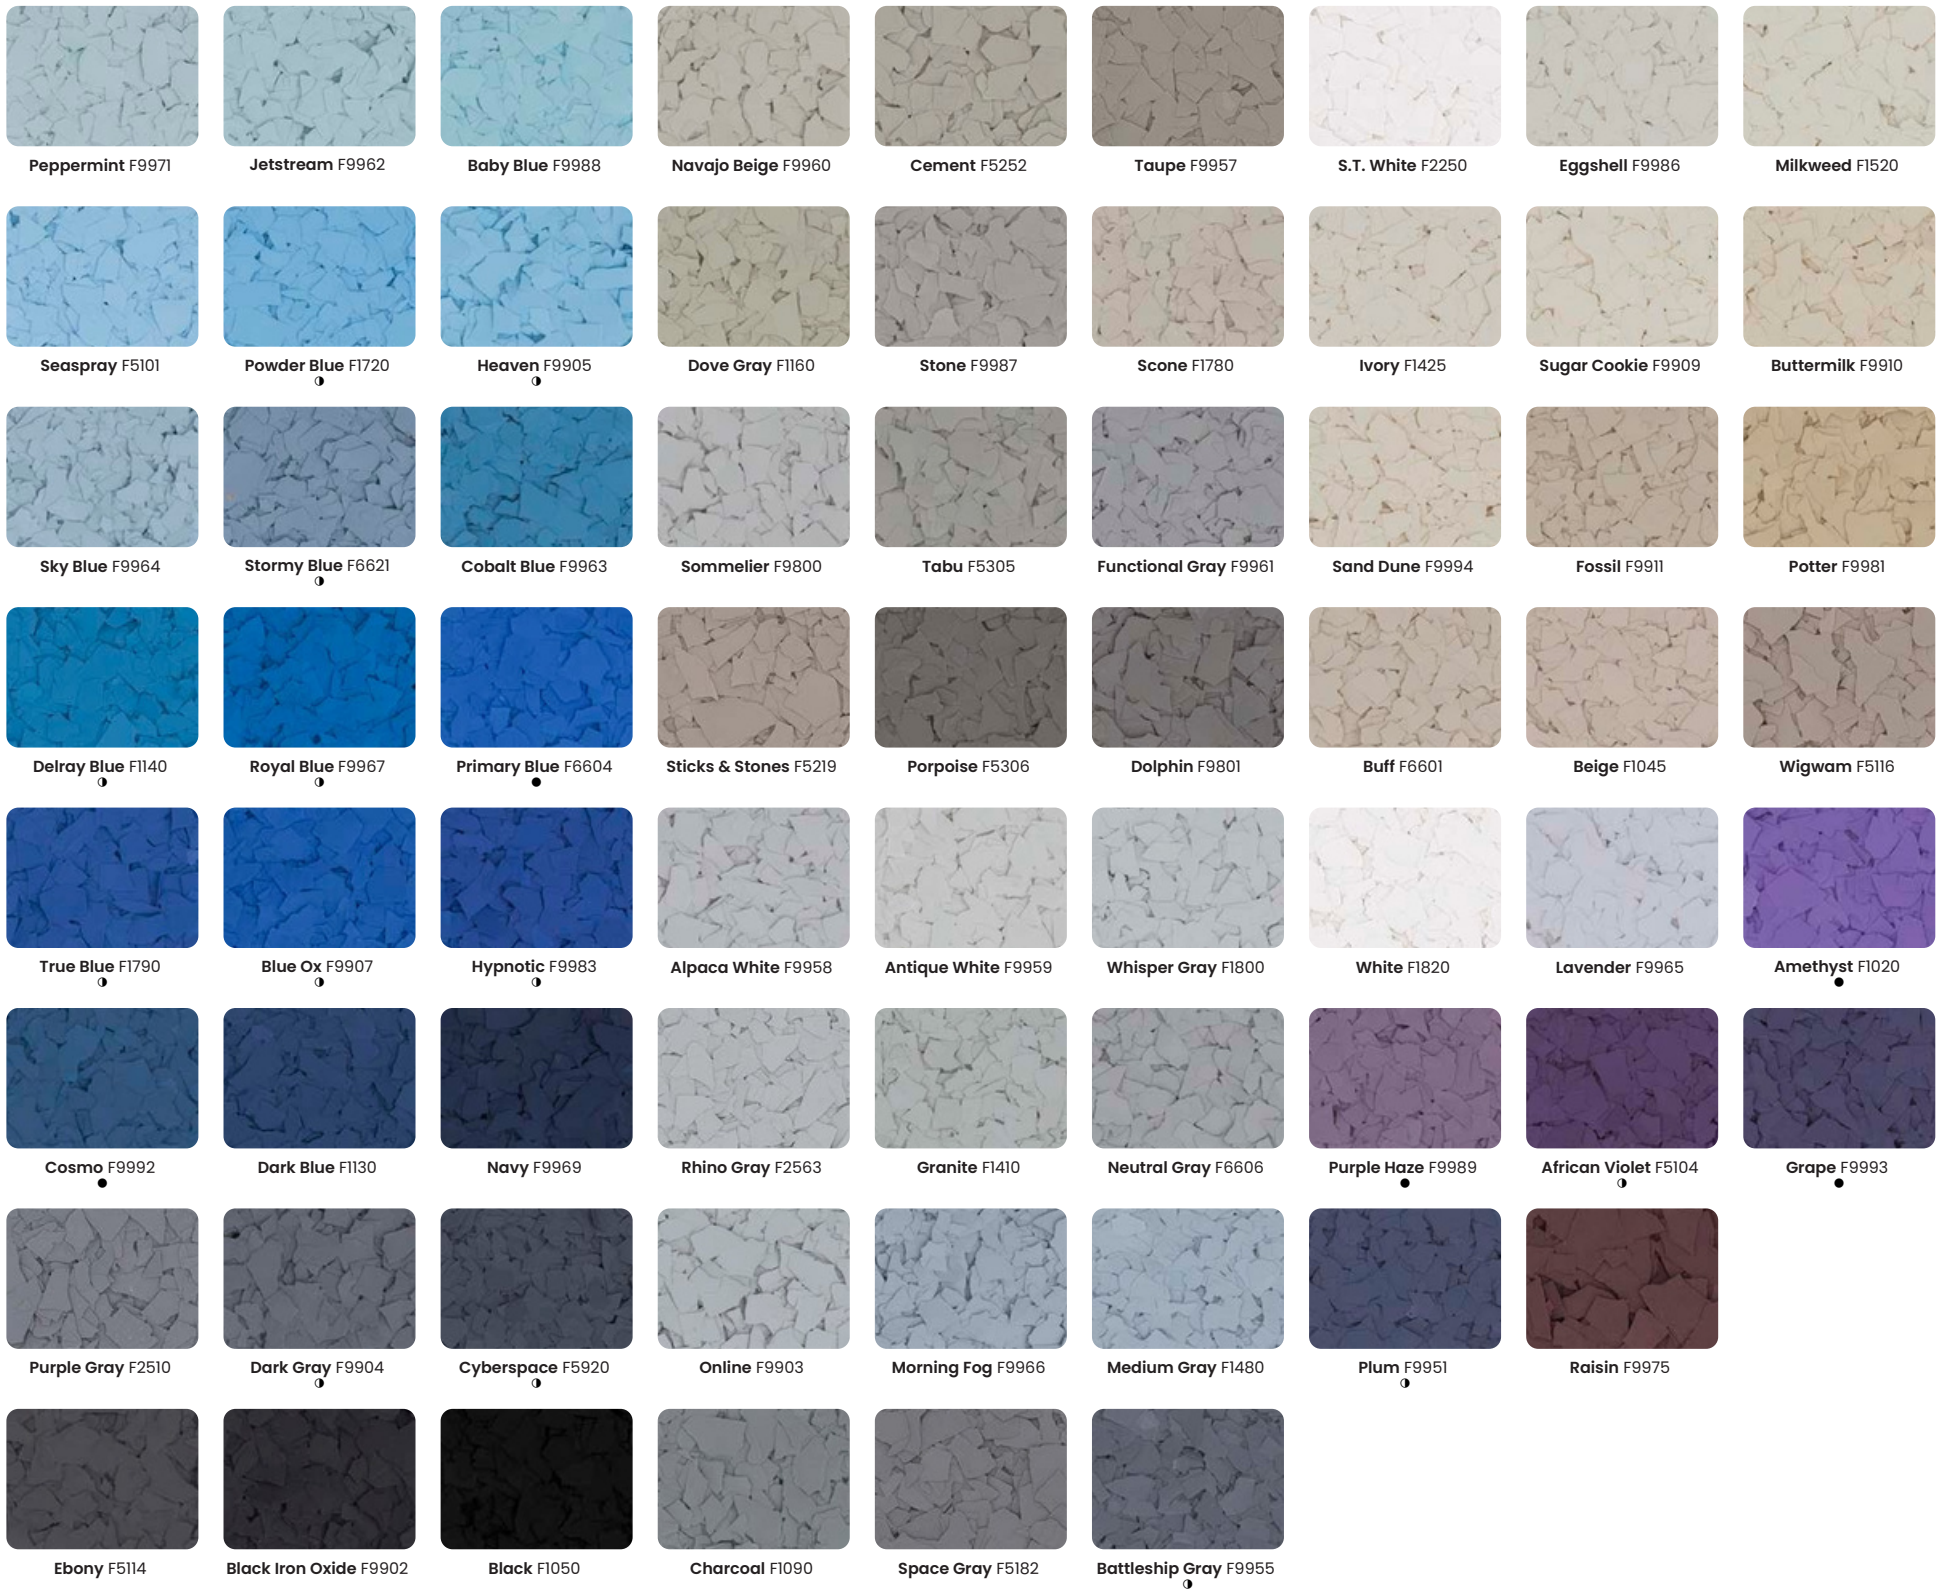

# VARIEGATED

Variegated FLAKE may vary slightly from lot-to-lot due to the nature of the manufacturing process. To ensure optimal color consistency when using multiple lots, variegated colors should be intermixed prior to use.

## FLUORESCENT

\*Fluorescent colors are **NOT** UV stable and are only intended for indoor use.
